

# Connecting PilotAware to Horizon – Your Portable Glass Cockpit

## Step 1:

- Download “Horizon – Your Portable Glass Cockpit” from the AppStore (for iOS devices) or the PlayStore (for Android devices).

<https://apps.apple.com/us/app/horizon-portable-glass-cockpit/id1303472835>

<https://play.google.com/store/apps/details?id=com.HeliosAvionics.Horizon>

- Follow the app instructions (setting up an account, downloading chart data, etc.)

## Step 2:

- Plug PilotAware into a power source. After it starts up it will emit a Wi-Fi access point (this might take up to 90 seconds after starting it up).
- Use your mobile device on which you want to run “Horizon” and connect it to the Wi-Fi access point of the PilotAware box.
