The new license key now needs to be input into your Classic or Rosetta Configuration page. To do this;

1. Log onto your **PilotAware WiFi**. (you will be able to do this even with out of date license key)
2. Using a browser type in 192.168.1.1 and navigate to the Configure Page.
3. Insert your new 16 digit, license key into the four boxes provided half way down the page.
4. Note that the permissible digits are 1234567890ABCDEF 0 is Zero not, O "Oh"
5. **Press save** and the new license will be inserted and the new expiry date shown.
6. If you insert the new code before the existing expiry date, then a reboot (or power off for 10 seconds then power on) is required before the new date will be shown.

There is also a you tube video giving further information on inserting your new code here.

[https://www.youtube.com/watch?v=XGIE\\_bJhVVE](https://www.youtube.com/watch?v=XGIE_bJhVVE)

Although this video is primarily how to assemble a PilotAware Classic, how to insert your new license code commences after 5 minutes 58 seconds. The Configure Page will look slightly different as we are continually adding new features, however the 4 boxes for the 16 digits remains the same.
